SmartRide program criteria differ in California and North Carolina. Stated discounts are approximations. Discounts do not apply to all coverage elements; actual savings vary by state, coverage selections, rating factors and policy changes. The enrollment discount applies during data collection; the final discount is calculated based on driving behavior and could be zero. The final discount applies at the next policy renewal and is subject to change based upon actuarial support at subsequent renewals or with changes in drivers or vehicles on the policy.
