**How We Will Calculate Your Balance:** We use a method called "average daily balance (including current transactions)".

Rates will be based on our evaluation of your credit and will be disclosed with your Card. The index used is the highest Prime Rate as published in the Money Rates section of The Wall Street Journal in effect on the 15<sup>th</sup> day of each month of each year.

**For additional Account information, please see the accompanying Credit Card Agreement and Disclosure document.**

(Revised 2/2016)

Rates will be based on our evaluation of your credit and will be disclosed with your Card.

Your APRs may increase if you default under the cardmember agreement you have with us for any of the following reasons: We do not receive at least the minimum payment due on this account by the due date; you exceed your credit line on this account; or you make a payment to us that is not honored by your bank.

VISA Platinum advances are subject to a Variable Rate that is based on the highest Prime Rate as published in the Money Rates section of The Wall Street Journal in effect on the 15th day each month of each year ("Index") plus Our Margin. The Index plus the Margin equals the Interest Rate. Changes in the Index will cause changes in the Interest Rate on the first day of the billing cycle of the month immediately following any such change in the index. Increases or decreases in the Interest Rate will cause like increases or decreases in the Finance Charge and will affect the amount of Your regularly scheduled payments. Your Interest Rate will never be greater than 24.99% and will apply to Your remaining principal balance. Actual APR may vary based on credit history. The information, rates, fees, etc., were accurate as of February 1, 2016.

**Cardmember Agreement:** You agree to be bound by the terms of the cardmember agreement, which will be sent with your Card. The cardmember agreement, which includes rates and fees, is subject to change.

**Payment Allocation:** Nationwide Bank applies payments and credits in excess of the required minimum periodic payment to balances with the highest annual percentage rate first and any remaining portion to the other remaining balances in descending order based on the applicable annual percentage rate.
