Medical Expense Benefit

If, as a result of a covered bodily injury, smoke inhalation, contagious or infectious disease or heart or circulatory malfunction, an insured incurs covered expenses starting within 90 days from the date of the accident causing the injury, we will pay, less the deductible (if any) shown in the application and not to exceed the overall maximum benefit amount, all covered expenses incurred within three years from such date.

Covered expenses means the reasonable and customary charges for local ("local" not applicable in a CT contract) professional ambulance service to or from a hospital and or surgical center as well as the following reasonable and customary charges for treatment, services and supplies provided or prescribed by a doctor:

- (1) hospital or surgical center care;
- (2) medical treatment;
- (3) nursing care provided by a licensed nurse;
- (4) X-rays and lab exams;
- (5) prescription drugs and therapeutic services and supplies;
- (6) dental treatment as a result of injury to sound, natural teeth (natural teeth in SC); and
- (7) the following licensed home health care agency services and supplies provided instead of an otherwise required hospital or skilled nursing home confinement:
 - (a) physical, occupational, respiratory and speech therapy,
 - (b) the services of a home health aide and
 - (c) medical supplies.

If excess medical has been elected, we will not pay benefits for covered expenses to the extent they are collectible under certain other policies and/or health plans as stated in the policy. (In PA, the excess medical is excess only of those medical expense benefits payable under the Motor Vehicle Financial Responsibility Law and the Workers' Compensation Law.)

[Coverage is provided under policy form No. GR-9091 et al.](#)

Certain provisions of the policy are summarized in this brochure. All benefits are subject to the policy, which alone constitutes the agreement under which payments are made.

Weekly Income Benefit

Total disability

If an insured becomes totally disabled within 90 days from the date of the covered activity involved, we will pay **(subject to any reduction see below)** the weekly income benefit on the following basis:

- (1) benefits start on the first day of total disability;
- (2) weekly benefit amounts are shown in the application. If payment is for part of a week, the daily rate will be 1/7 of the weekly benefit; and
- (3) benefits for a period of total disability will end on the first of these to occur: (a) the death of the insured; (b) when the total disability ends; or (c) when the insured is age 70, provided that, in a MD contract if the insured is age 69 when his or her benefits start, we will pay up to 12 monthly payments. Total disability or totally disabled means disability caused by a covered bodily injury, smoke inhalation, contagious or infectious disease or heart or circulatory malfunction:
 - (1) which, throughout the first 104 weeks, keeps the insured from performing (with reasonable continuity, if a CA contract) the substantial and material duties of his or her regular job;
 - (2) which, after the first 104 weeks, keeps the insured from performing (with reasonable continuity, if a CA contract) the substantial and material duties of any job for which he or she is reasonably suited or qualified by education, training, or experience (also his or her station in life, physical or mental capacity, or age if a CA contract); and
 - (3) during which it is shown that the insured is either (a) under the regular care of a doctor, or (b) at the maximum point of recovery as determined by competent medical authority. Period of total disability (language does not apply in a CA contract) means the period of time when the insured is totally disabled. Successive periods of total disability are treated as one unless:
 - (1) they are separated by at least six months; or
 - (2) the latest is because of an unrelated cause and begins after the insured returns to active work for at least one full day.

Partial disability

If an insured becomes partially disabled within 90 days from the date of the covered activity involved or immediately following (but not during) a period of total disability, we will pay (subject to any reduction-see below) the weekly income benefit on the following basis:

- (1) benefits start on the first day of partial disability;
- (2) weekly benefit amounts are 1/2 of the weekly income benefit shown in the application (if payment is for part of a week, the daily rate will be 1/7 of the weekly benefit); and

(3) benefits will end on the first of these to occur: (a) the death of the insured; (b) when the partial disability ends; (c) when the number of weeks for which benefits have been paid equals 13; or (d) when the insured is age 70. Partial disability or partially disabled means disability caused by a covered bodily injury, smoke inhalation, contagious or infectious disease or heart or circulatory malfunction:

- (1) which keeps the insured from performing one or more, but not all, of the major daily duties of his or her regular job; and
- (2) during which the insured is under the regular care of a doctor.

Reduction means that the weekly income benefit amount payable to an insured for total or partial disability will be reduced as much as is necessary to keep the total of the amount payable plus all of the insured's income from other sources from being more than 75% of his or her gross average weekly earnings from all salaries, wages, commissions, bonuses and other direct job income.

Income from other sources means periodic benefits for loss of time payable or provided for the same period of total or partial disability or a part of that period under:

- (1) certain other insurance contracts or retirement plans as stated in the policy;
- (2) an employer, labor management, and/or union sponsored salary continuance, disability or retirement plan;
- (3) Workers' Compensation (and Unemployment Compensation if a CA contract) or similar occupational laws;
- (4) the Social Security Act, the Railroad or Civil Service Retirement Act, any compulsory state disability benefit law or any other loss of time or retirement plan provided by a government authority of any country (including any state, province or political subdivision). Increases in the amounts paid under items (3) and (4) in the paragraph above which occur after the benefit period begins will not be used to further reduce the amount we will pay.

Daily Hospital Indemnity Benefit

If, as a result of a covered bodily injury, smoke inhalation, contagious or infectious disease, or heart or circulatory malfunction, and on the advice of a doctor, an insured is confined as a hospital inpatient within 90 days from the date of the covered activity involved, we will pay the daily hospital indemnity benefit on the following basis:

- (1) benefits start on the first day of hospital confinement;
- (2) the daily benefit amounts which apply are shown in the application; and
- (3) benefits will end on the first of these to occur: (a) when the confinement ends, or (b) when the number of days for which benefits have been paid equals 365, or (c) the date the insured reaches the age of 70, provided that, in a MD contract if the insured is age 69 when his or her benefits start, we will pay up to 12 monthly payments.

Death and Specific Loss Benefit

If, as a result of a covered bodily injury, smoke inhalation, contagious or infectious disease or heart or circulatory malfunction, an insured dies or suffers a specific loss within one year from the date of the covered activity involved, we will pay a benefit as specified in the table below. The one-year limit does not apply to the loss of life benefit in a PA or WV contract.

Specific Loss	% of Face Amount
Each Arm	75%
Each Leg	75%
Each Hand	50%
Each Foot	50%
Sight of Each Eye	50%
Speech	50%
Hearing of Each Ear	25%
Thumb and Index Finger of Same Hand	25%

The total payment for all of the losses of an insured because of any one occurrence will not be more than the face amount shown in the application. The loss of the thumb and index finger of the same hand benefit will not be paid if the loss of the hand or arm benefit applies to the same limb. The loss of the hand or foot benefit will not be paid if the loss of the arm or leg benefit applies to the same limb.

Policy Exclusions & Limitations

We will not pay benefits for expenses incurred for:

- (1) the examination, prescription, purchase or fitting of eye-glasses, contact lenses or hearing aids; or
- (2) treatment by a person employed or retained by the plan sponsor or its subsidiaries or affiliates and for which no charge is normally made; or
- (3) care or treatment by a person who ordinarily lives in the insured's home or is a parent, grandparent, spouse, brother, sister or child of either the insured or the insured's spouse (if a NJ contract, care or treatment furnished by a member of the insured's immediate family).

Nor will we pay benefits for loss or expenses resulting from:

- (4) intentional self-destruction or an attempt at it, or intentional self-inflicted injury (if MO contract, while sane);
- (5) war or an act of war, declared or undeclared; or
- (6) air travel unless the insured is a passenger on a regularly scheduled flight of a properly licensed commercial airline.
